

# You Said, We did

## How we are working with your feedback

Resources need to be accessible digitally- phone/PC/tablets

All resources can be accessed from a smart phone, tablet, or laptop

Embed QR codes as it makes user friendly and for wider audience

All resources include a QR code

Record video guides that show the resources can be used step by step

Webinars have been arranged to give step by step guidance for each of the resources these will be recorded and added to the DRIPP website

Has there been a consultation with other organisations eg National Nutrition Nurses Group (NNUG) Patients on Intravenous and Nasogastric Nutrition Treatment (PINNT)

We have invited NNNG and 2 of their committee members have joined the DRIPP collaborative

Need to involve the devolved nations not just England

The membership has been increased with members now from **Scotland, Ireland, Wales and Northern Ireland**

Case Studies

Case studies have been requested, with the first one from Kings College, London
